Subject: Draft for the narrative from the Site Users attendees.

Rex, would you please circulate to the members of the site users Sub-Committee in time for those attending to prepare their club's input.

Hi All- Members of the Belmont Site Users Sub-Committee.

You will recall that nearing the end of the last meeting, I proposed that I will format draft guidance to reface the meeting structure and all attendees be offered a larger opportunity to increase individual clubs input which is valued and should be the core of these important meetings.

For guidance, I proposed that a few minutes for each club spokesperson to hold the floor for at least 5 to 10 minutes each.

Open agenda but should include-, feedback from club members after the members being briefed on the matters discussed at the last meeting, report on retention strategies of current membership, attracting new members to our clubs, training programs, events coming up, feedback on recent events, safety issues, New subjects for the site users agenda, not limited too, but as a guide only. Handouts acceptable!
Regards Graeme D (Dono) Chair
